

## Declaration about regulatory status of secondary raw materials

Dear supplier,

The Nexans Group is following carefully the initiatives of the European Commission dealing with environmental and safety issues.

Nexans is dedicated to serve their customers by providing products that are conform to the requirements of the REACH Regulation 1907/2006/EC (the "Regulation") and the RoHS Directive 2011/65/EU (the "Directive"). Strict policies are being implemented throughout Nexans to comply with the Regulation and the Directive.

Nexans purchases to your company secondary raw materials. To ensure the regulatory compliance of the purchased products, we ask you to fill up the following declaration according to your situation:

I, (Name of the supplier), certify that the monomers used for the manufacture of the polymers are registered to the EChA.

I declare that (Choose the relevant sentence)

- (1) The raw materials supplied to Nexans are only coming from industrial wastes obtained from units located in the European Union (EEA) and do contain neither Substances of Very High Concern ("SVHC") of the Candidate list from the REACH regulation in amount above 0.1% w/w nor substances from the Annex 2 of the RoHS Directive above the maximum concentration values tolerated by weight in homogeneous materials.
- (2) Raw materials used come from industrial products wastes obtained from units located outside European Union industry and do contain neither SVHC of the Candidate List from the REACH regulation in amount above 0.1% w/w nor substances from the Annex 2 of the RoHS Directive above the maximum concentration values tolerated by weight in homogeneous materials.
- (3) The source of raw materials used is not only from industrial wastes. I have analyzed the materials and checked that the substances listed in Annex are not contained in the materials in amount above the legal threshold defined by the Regulation and the Directive. I may be asked by Nexans to provide the various report analysis for each batch supplied.

## ANNEX: Substances to be analyzed

Below are detailed the substances needed to be analyzed to fulfill the part (3) of the declaration of compliance with the REACH regulation and the RoHS Directive.

Substance	Legal threshold
Diazene-1,2-dicarboxamide (C,C'-azodi(formamide)) (ADCA)	0.1%
Cadmium	<b>0.01%</b>
Bis(2-Ethylhexyl) phthalate (DEHP)	0.1%
Dibutyl phthalate (DBP)	0.1%
Butyl benzyl phthalate (BBP)	0.1%
Polybrominated Biphenyls (PBB)	0.1%
Diisobutyl phthalate (DIBP)	0.1%
Dibutyl phthalate (DBP)	0.1%
Decabromodiphenyl ether (DecaBDE)	0.1%
Polybrominated Diphenyl Ethers (PBDE)	0.1%
Dihexyl phtalate	0.1%
Diisopentyl phtalate	0.1%
Hexabromocyclododécane (HBCDD)	0.1%
Lead	0.1%
Lead Chromates	0.1%
Lead monoxide and lead tetraoxide	0.1%
Benzo[a]pyrene	0.1%
2-benzotriazol-2-yl-4,6-di-tert-butylphenol (UV-320)	0.1%
2,4-di-tert-butyl-6-(5-chlorobenzotriazol-2-yl)phenol (UV-327)	0.1%
2-(2H-benzotriazol-2-yl)-4,6-ditertpentyphenol (UV-328)	0.1%
2-(2H-benzotriazol-2-yl)-4-(tert-butyl)-6-(sec-butyl)phenol (UV-350)	0.1%
2-methoxyethanol	0.1%
Alkanes, C10-C13, chloro (Short chain Chlorinated Paraffins)	0.1%
Hexavalent chromium	0.1%
Mercury	0.1%
Polycyclic aromatic hydrocarbons (PAH)	See entry 50 of the Annex XVII

The recommended methodologies to analyze substances content into the material are the one described in the standards CENELEC 62321 series.
